Scott's Hotrods FAQs

<https://www.scottshotrods.com/scotts-faqs/>

Do you build a suspension kit or chassis for my vehicle?

YES! We manufacture vehicle specific, not universal, suspension kits and complete chassis for ANY year/make/model vehicle 1925-1987.

Can I get a chassis/suspension quote?

Email sales@scottshotrods.com or Call 800-273-5195

How do I bleed my new power rack & pinion?

- 1 - Fill your power steering reservoir with power steering fluid
- 2 - Jack the front of the car high enough so the tires are off the ground
- 3 - Turn the steering wheel back and forth from Lock to Lock at a slow steady pace about 25 times
- 4 - Check fluid level and top off as needed
- 5 - START THE ENGINE WITH THE WHEELS STILL OFF THE GROUND.
- 6 - Turn the steering wheel back and forth from Lock to Lock at a slow steady pace about 50-100 times
- 7 - Check fluid level and top off as needed
- 8 - Continue until ALL of the air is out of the system

What power steering pump should I used with my new rack & pinion?

Any Power Steering Pump will work with our Rack & Pinions

What is my new power rack & pinion out of?

Our New Power Rack & Pinion Steering Racks fit a '89-'90 Ford Thunderbird. We do not use remanufactured racks.

Alignment Specs:

Toe IN: 1/16" to 1/8"

Caster: 4 to 7-degrees

Camber: Street 0-degrees. More Aggressive Driving: -0.5-degrees

Do I need to run a Pressure Reducer in my power steering lines?

No

What are the fitting sizes for my power rack & pinion?

9/16-18 thread pressure (bottom), 5/8-18 thread return (top)

What size bolts are used for my...?

All Hardware sizes can be found in our instructions. <http://www.scottshotrods.com/downloads/>
